THE COUNTY COMMISSIONERS'

Report of the W. & C. R. R. Conference Committee and Other Matters Yesterday. Last Meeting of the Fiscal Year.

The County Commissioners met in regular monthly session yesterday morning. It was the last meeting in the fiscal year and all business that could be closed up was presented and disposed of. All the Commissioners were present and the meeting was finished before noon.

The committee appointed to confer with the committee of the incorporation of the Wheeling & Connellsville railroad reported as follows: MAY 31, 1891.

Honorable Board of Commissioners. Your special committee hitherto appointed to confer with a committee of the incorporators of the Wheeling & Connellsville Railroad Company, reports that it has had one or two meetings with said committee, and that its proposition is substantially:

That the Board shall submit to the voters of the county the question of the county taking \$500,000 of the bonds of the said railroad company; said bonds to be secured by a second mortgage on the property of said railroad company, and the indebtedness to be secured by the first mortgage bonds not to exceed \$30,000 per mile of road.

Said railroad company is at all times to allow anyone owing money for freight to pay one-tenth of such indebtedness with said second mortgage bonds, and is at all times to deliver coke at the Wheeling end of its line at a rate of not more than ten cents a ton in excess of the current rate from the coke regions to Pittsburgh.

Your committee has caused the said committee to be informed that without at present considering the details of the proposition it does not deem it advisable to recommend the Board to accede thereto, as it considers that the security for the bonds proposed to be subscribed for is insufficient and the amount asked for is excessively large.

Your committee has not as yet been advised of any other proposition from the committee of incorporators; it, however, requests that it may be allowed further time for a final report on the matter.

The committee was composed of Messrs. Gruse, Blayney, McGregor, Hall and McGinley.

The commissioners reported their expenditures in the way of county poor orders as follows:

Frank Gruse, Webster District..... \$1,025 25
John Koch, Washington District..... 909 00
Philip Vollinger, Centre District..... 650 25
John H. Hall, Clay District..... 616 00
L. W. Blaney, Liberty District..... 554 97
James McGinley, Union District..... 1,468 60
H. P. McGregor, Madison District..... 249 00
F. C. Bode, Triadelphia District..... 431 24
Adolph Fritz, Ritchie District..... 1,001 50
W. J. Bates, Jr., Richland District..... 71 00

All committee reports were acted upon favorably and the bills from the various committees were paid as follows:

Roads and bridges..... \$135 90
Court House and Jail..... 972 88
Poor House and Farm..... 542 58

The report of the keeper of the Poor House showed 76 persons on the farm, of whom 55 are males and 21 are females.

License to keep a tavern was granted to Mrs. Amelia Walter, widow of Frank Walter.

County Physician Wilson reported, that during the year he had made 1,803 visits and had assisted in three inquests.

The credits to the different districts in the road tax fund was reported by the clerk as follows:

Triadelphia..... \$25 03
Richland..... 172 37
Liberty..... 55 45
Washington..... 40 80

There was but one applicant for the vacant justiceship, caused in Webster district by the death of D. W. Roberts. J. B. Hughes had in an application and he was elected unanimously.

A resolution was adopted declaring the intention of the county to assume control of the National road so far as it is within the county if it is found to be worth taking. An inspection of the pike will be made by the entire board on June 10, and at the next meeting the proposition of the State to turn over the road will be accepted or rejected.

The law librarian presented his annual report, showing the condition of that institution to be very good.

The next meeting will be held on June 17.

IN THE JUSTICES' OFFICES.

The Elm Grove Row of Sunday Week.

Other Difficulties.

The inquiry into the Elm Grove fight of last Sunday week was continued in Squire Arkle's office last night and the parties were both fined, one \$5 and costs in each of two cases of assault and battery, and another \$5 and costs for assault and battery, while a third was mulcted in the same sum for assault and battery and in addition, failing to appear last Saturday as a witness, \$1 and costs. The other two were dismissed.

The case of Martin Kraft, accused of throwing bricks into Mrs. Aaron's windows, came up before Squire Davis yesterday. The hearing was continued over until Wednesday at 10 a. m. John Deiters pleaded guilty to chewing up his brother-in-law's head, and was fined \$5 and costs.

THEY SOLD ON SUNDAY

And Must Pay the Price—Disatisfaction Claimed to Exist.

Yesterday warrants were issued by Police Court Clerk Fee for Joshua Rine, Patrick Gavin, Jacob Wilhelm and Thomas Carney, all saloon keepers, charged with selling on Sunday. Two charges are placed against Gavin and Rine for distinct and separate offenses. It is alleged by the officers that these men opened up and were ordered by them to close, and after the departure of the officers began business again and were again ordered to close. On this account two charges were preferred. Both men have expressed their intention to appear in police court this morning and stand trial.

Lieutenant Frohne said last night that there had been a great deal of complaint caused by the chief's ordering the saloons closed on Sunday, and he even ventured the assertion that some of the best people in town had made complaint.

Memorial Day at Sand Hill.

Memorial Day was right royally observed by the people at Sand Hill. They turned out en masse with John A. Logan Post, G. A. R., making the day a memorable one. The exercises commenced at 2:30 o'clock p. m. in the M. E. Church, which was beautifully decorated with flags. After comrades D. Winters read order No. 3, the large assembly joined in singing "All Hail the power of Jesus' Name," after which Chaplain A. Turner offered prayer. Next came the duty of the committee on flowers, to take the beautiful floral offerings and march into the cemetery and decorate the soldiers' graves, while the choir, led by Prof. Marsh and Heatherington, grandly rendered "Soft, Soft They Slumber," and on the committee's return it sweetly sang "Under

One Flag." Addresses were made by Chaplain Turner, Messrs. Dougherty, Bruce and Taylor. The essays by Misses Fairy Turner, Minnie Winters, M. Campbell; also the "Silver Bugle Call," by Misses D. Winters, C. Davis and L. and M. Bruce, took the house by storm. At 4:45 the doxology was sung and the benediction pronounced.

A VISIT TO "THE HILL"

Where Mr. Seabright Sends People Without the Wherewithal.

A reporter of the INTELLIGENCER made a visit to the City Prison, or "work house," as it is familiarly known, yesterday morning. There has been a great deal said about the condition of the prison and many a joke has been cracked in the newspapers about prisoners kicking the boards off and leaving whenever they cared to do so.

These things are hardly fair. The prison is as clean as such an institution can well be and the general surroundings are not bad by any means. The buildings themselves are in very bad condition, but that is only blamable on the city and can not properly be laid at the door of the Superintendent or any of his assistants.

There were eighteen prisoners in the prison yesterday morning when the reporter called. They are all fairly clean, though there are no provisions made for cleansing those who are received there. The inside of the prison proper is whitewashed and smells as well as any room with the same number of people in it would. There are two rooms called "coolers," where refractory prisoners are put to live in the dark for a few hours till their tempers become sweet. These are damp, lying up against the hill, but the remainder of the building is dry and in good condition. There are only bed clothes for about ten bunks and as a consequence there are quite a number who sleep and live on the bare boards.

The Superintendent said yesterday that he had not gone to any very great pains to whitewash the outside of the building, in the hope that the city would build a new prison, or at least make repairs on the old one that would make it more convenient and presentable. There is no prospect of that being done now, since the Finance Committee has met and appropriated all the money to come in this year for other purposes.

The men in the prison are employed breaking stone. This should bring to the city a very good revenue if it were properly conducted. To conduct it properly is impossible under the present conditions. The stone is quarried from a drift under the hill just back of the prison, and it is necessary to blast the rock out of the solid ledge. This makes it very slow work and very expensive at the same time. The rock has all been taken out for several rods under the hill and it is now necessary to go in so far as to make the place dangerous and to make the expense of getting the stone out almost as great as the value of the product after it is finished. What should be done is to tear the old prison down and build a new one at some point where the limestone can be had by stripping off the earth on top. There are many such places convenient to the city, and in such a locality the prison should be a source of considerable revenue.

Concerning the jokes about people kicking the boards off and walking away, Superintendent Rodenbaugh said there were no grounds for them. The men who have escaped have all gotten away while on the work outside. The force of guards is not sufficient to keep a close watch on all the men when the prison is well filled, and when one starts to go, it is considered better to let him go than to shoot him or allow the rest to escape while the guard is after the one.

Yesterday the prisoners were out digging up the water pipe from the prison to the main, there being a leak between the two points. The prison is above the reservoir, and the water had to be pumped up from the main pipe by a small hand pump. This is another very unfortunate thing. With plenty of water and a good pressure behind it, it would be a much easier job to keep the prison and the inmates clean.

The drift from which the stone is taken is almost immediately under the new reservoir, and whenever the north compartment of the reservoir is filled with water the drip through the hill commences and there is a steady stream coming through the rocks into the drift.

University Commencement.

Following is the order of exercises at the State University commencement at Morgantown:

Sunday, June 7, Baccalaureate sermon, by Rev. J. J. Murrey, D. D., of Baltimore.

Monday, Field Day, athletic association. Evening—Lecture by the staff of the Agricultural Station on agricultural topics. Reception by ladies of the Faculty.

Tuesday morning—Reading of Theses by engineering graduates. Evening—Contest between the literary societies.

Wednesday, 10 a. m.—Commencement exercises. 1 p. m.—Alumni banquet. 3 p. m.—Military display. 9 p. m.—Commencement ball.

Death of A. T. Castor.

Mr. A. T. Castor, who for many years has been proprietor of the West Virginia Stencil Works, died at his home on Market street yesterday of paralysis of the brain. He has been failing for several months, but his condition was not looked upon as alarming until a few days ago. He has been confined to his bed for about four weeks.

In the Circuit Court.

In Part II of the Circuit Court yesterday Judge Paull heard the conclusion of the arguments of counsel in the case of John A. O'Keefe, Trustee, vs. John C. Clator and adjourned court till next Monday when a special term will begin, and the decision of the case will be given. Part I was not in session yesterday.
